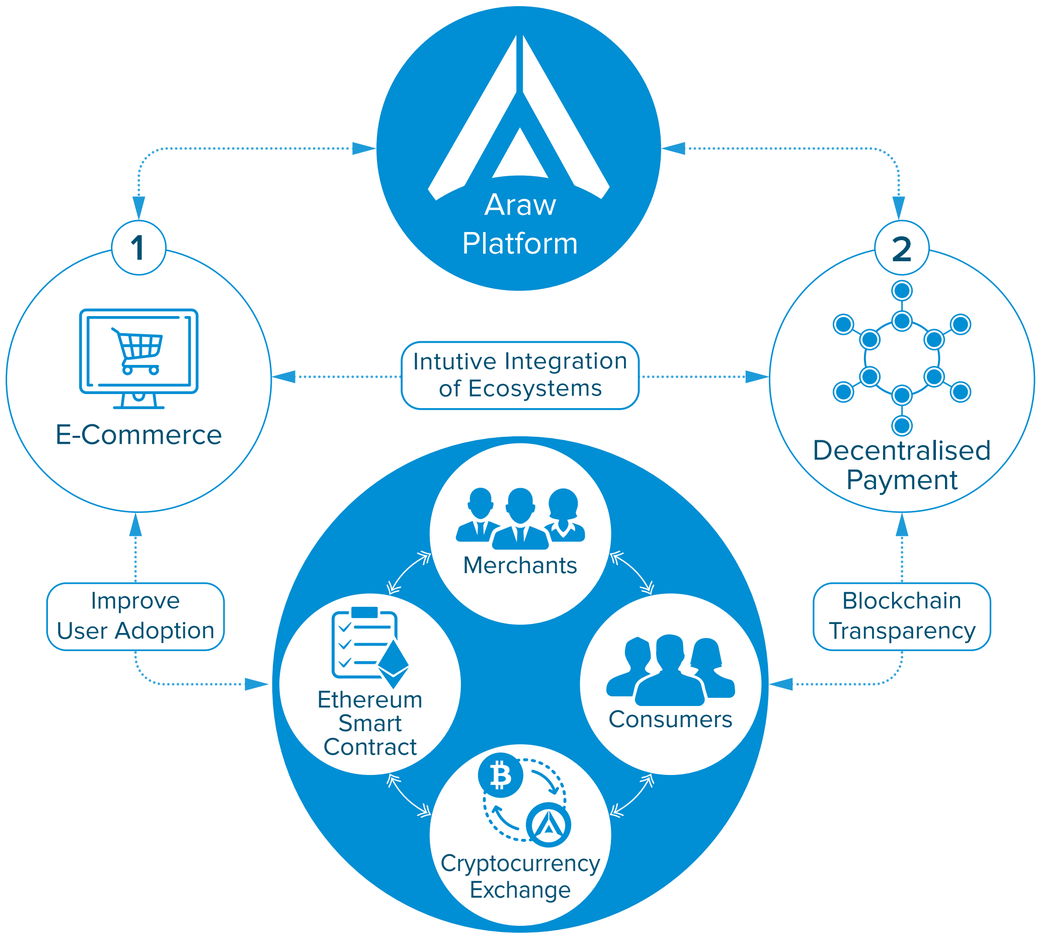
ARAW

The Decentralised Payment for
E-Commerce Ecosystem

www.arawtoken.io

Vision: Be at the forefront of the Blockchain User Adoption

We are aiming to contribute to the global Blockchain User Adoption by intuitive and seamless integration of vastly used E-Commerce channel with the Decentralised Payment such that regular people across the world can benefits from the cryptocurrency without needing them to change their shopping behaviour or understand complexity of the Blockchain technology.



Challenges

Araw Pay
Accept online payments with a click of button

Araw Touch & Pay Card
Enabling instore micropayments

Transparent
Transparent ecosystem to increase adoption rate

Adoption
Increase the ARAW token adoption by merchants

Unified Reward System
Unified Reward System enabled e-commerce ecosystem

Approach

Plug & Play Widget
Design and implement Araw Pay online widget which can be plug and play on any websites

Cashback
Easily redeemable rewards and rapid cash in will encourage customers to use ARAW card for all their shopping needs.

Ease of Use
Intuitive user interfaces making it feel like second nature thus user do not notice the advance technology that power purchases and rewards system.

Merchant Adoption
Targeted and specialist resource dedicated to merchant on-boarding and support to ensure every client campaign is a success.

Growth
Specific campaign management assistance to help clients maximise adoption rates.

Objectives

End-To-End Solution
Provide end-to-end solutions for E-Commerce Marketplace, Touch & Pay Cryptocurrency Card, Online Cryptocurrency Payment, and Unified Reward System powered by the Ethereum Blockchain regulated by the ARAW token

Self Managed
Create a Consumers driven floating ecosystem

Transparent Ecosystem
Create a Transparent ecosystem that can be used by regular customers across the world;and hence, increase the adoption rate of the ARAW token, the Blockchain based cryptocurrency

ARAW
